

Appendix 3 Early Help Process Flow

Child is at risk of significant harm.
 If you think a child or young person is in immediate danger telephone 999.

At any time during early help work you have any concerns for a family. We would encourage you to initially discuss with your safeguarding lead and then if you still need advice you can contact the Advice and Access Team on 232200 option 1 for a professional discussion.

If you consider that a child is at risk of significant harm, you should contact the Safeguarding and Referral Team on 01782 235100 and press option 3.

Practitioners should have a conversation with the family and seek consent before contacting SRT unless you feel that this will place any children at risk.
